

KORAL LINE K1200E

TYPE	Pass-through dishwasher
LINE	KORAL LINE
BASKET	500x500

The KORAL line is distinguished by its wide range of models suitable for any situation. Through the electronic card, the control system provides great customisation options based on your needs, allowing you to accurately adjust any parameter and ensure optimum washing results. The tempered glass UNIKO-MID lcd-touch display is extremely reliable and ensures optimum performance. Selecting one of the 4 wash cycles available is really simple and practical messages on the display will allow preserving the dishwasher life.

The K1200E hood type dishwasher with Ø30mm washing arms and boosted wash pump, is aimed at all activities having to deal with rather stubborn dirt residues. Thanks to its dimensions, it is suitable for efficiently washing 18 dishes per cycle with a maximum productivity of 60 baskets/hour (1080 dishes/hour), medium sized objects and GN 1/1 baking trays, as utensils measuring up to 500x500x390(h)mm can be placed in its basket. The hood type models are fitted with an easily removable basket support for easy cleaning and a rounded moulded tank with integral filters for perfect draining and absolute hygiene. The "PUSH TO START" cycle start system ensures less waste preventing the start of empty washes.

The electronic control allows you to manage various parameters to give you an absolute customisation level and the continuous self-diagnosis allows you to minimise machine downtime, suggesting some operations to be verified. The self-cleaning cycle at the end of the day cleans the wash tank and empties the boiler from the hot water, preventing limestone forming inside. The standard double peristaltic electric rinse-aid and detergent dispenser ensures the best result from each wash cycle with great savings thanks to the precise dosage managed by the electronic card; whereas, the moulded washing and rinsing arms ensure great reliability and durability. The Thermo-stop function checks that washing and rinsing begin only when the desired temperature is reached. The bodywork is made entirely of AISI 304 steel and has been designed with all components in the front to allow easy technical assistance. Sturdy and reliable dishwashers to best deal with every moment of your day.

DISHWASHERS FEATURES	KORAL LINE K1200E
n° baskets/hour - (+55°C)	Max 60
